

Assignment 3 — Customer Development

COURSE:

Technology Entrepreneurship

PROJECT:

SUB-CHECK — Cloud-Based Behavioral Anti-Cheat

TEAM MEMBERS:

•Nurzhan Bekmurat

•Azamat Yermukhan

•Yernur Khuan

Submission Repository

All Assignment 3 materials, including the Customer Development questionnaire, interview evidence, analysis, report, and presentation, are available in the project repository:

GITHUB REPOSITORY:

<https://github.com/Scirtor/subcheck-anticheat>

The repository is being updated with the final Assignment 3 materials before the submission deadline.

Project

SUB-CHECK is a server-side behavioral anti-cheat platform that analyzes player input patterns and produces a risk score without requiring invasive kernel-level software on the player's device.

Repository Structure
